<u>TimingResearch.com</u> Lighting Round #3:

7 Risk Management Strategies: Top Traders Share Their Best Tips

Thank you for downloading this document! For over 9 years now, I have been building TimingResearch.com as a resource to help people learn more about trading and investing from a variety of the world's top educators.

A few months ago, I was talking with Casey Stubbs of <u>TradingStrategyGuides.com</u> and he suggested the topic of "Risk Management" for one of our projects. So I asked him and several other professional traders to record a short summary of how they handle risk management in their trading. From position sizing, to stops, to sector rotation, this group of videos has tons of valuable info to help you hold on to more of your trading profits.

In this PDF you can read summaries of these presentations and click through to the ones you want to watch in full, or you can also access the list of videos <u>HERE</u>.

Feedback, comments, questions? Simply reply to any TimingResearch.com email or use the contact form here.

Thank you,
-David J. Kosmider
Founder of TimingResearch.com
