- reverse head and shoulders on DJIA may lead the S&P500.
- All tech stocks are all time high, It may pull back 1-2% and moves to new high.
- good stats All around.
- Elliott waves

“Lower” Respondent Answers:

Thank you for all the feedback, feel free to [contact us](#) at any time with any other questions or comments.

- none at this time.
- Since 1928 only two bear market rallies have retested lows. 2000 & 1957. Unless the economy is totally shut down again this will not happen. Plenty of funny money poured in by the FED. Don't fight the FED.
- This is a very difficult time in the market, but the NQs almost always rally up until 10 am est.
